

# VOGUE KITCHENS

CREATING LUXURY KITCHENS SINCE 1998

# ABOUT US

*Vogue Kitchens is an award-winning family-run kitchen design business based in London. With over forty years experience in the kitchen industry, Jo & Sharan have a passion for kitchen & interior design. Working with high profile clients, to everyday family homes. Their biggest talent is in creating luxury spaces that connect with their clients.*

We work with you to create your ideal kitchen whether you are an architect interested in a kitchen for a project or an individual looking to improve your apartment or house. We specialise in combining interesting architectural features, clever spatial design and confident colour & texture. We create layouts to harmonise your kitchen with your living space, to make it the absolute heart of your home.

When you visit our luxury kitchen showrooms based in Ealing and Northwood, you will find beautiful working kitchen displays by premium German furniture brand, Leicht and Italian furniture brand, Cesar.

## STEP 1: CONSULTATION

You are invited in to our showroom to sit with your personal designer to discuss all of your requirements. This allows us to understand the lifestyle and space you are wanting to achieve. After this initial consultation we will invite you to another appointment for the exciting bit, the design presentation.

## STEP 2: PRESENTATION

From your consultation, your designer will produce a full design and quotation package for you. Your kitchen design will be presented to you in the showroom where you will be shown around your kitchen in a 3D walk through, high quality renders and a series of drawings.

Once we are appointed, your designer will work with you until you are satisfied with all the design elements required to create your perfect kitchen.

## STEP 3: ORDERED PLACED

The last step of the process is placing the order with us. Once you commission us for your project an order is generated. We will come to the site and take a detailed survey to produce service drawings for you indicating where the various services need to be.

## STEP 4: INSTALLATION

Your kitchen will then be delivered and installed. Throughout the whole process we will be there to answer any queries you may have.

*Hello*

*Design Process*

# NORTHWOOD

*Our Northwood kitchen showroom features three large displays with luxury German & Italian furniture brands Leicht and Cesar Kitchens. Explore our showroom and discover the range of door colours, materials, worktop finishes and appliances.*

*Our kitchen displays also feature stunning overhead pendant lighting which can be designed and purchased for your project.*

*Northwood Showroom*

# EALING

*Our Ealing showroom is a family and pet friendly space with over five beautiful displays, stunning overhead pendant lighting by Tom Dixon and two relaxed presentation spaces. Every display has different style doors and textures, including concrete, wood veneer, glass, glossy lacquer, matt, classic shaker and many more.*

*Explore our Ealing kitchen showroom and discover the range of door colours, materials, worktop finishes and appliances.*

# Project Denham.

*"Vogue Kitchens designed & installed our dream kitchen! We took on the challenge of doing our renovation during the peak of Covid and Vogue made it the most smooth sailing experience. We are so thankful, more than we could put into words. They understood what we wanted to achieve and they truly recommend what would work for us. Our whole experience with Vogue Kitchens was 10/10 from the first time we met the team. Thank you for giving us our dream kitchen."*

# Project Marylebone.

*Our Work*

# Project Berkshire.

*“Vogue have delivered a true heart of the home for us. From the initial consultation and design process, to the surveys, changes along the way and installation. The entire team at Vogue have maintained the highest level of expertise to help me achieve a functional, practical and truly stunning kitchen. They think of everything and know their product very well, taking great personal interest in the end result. I absolutely love this room and cannot recommend the team at Vogue highly enough.”*

# Project Pinner.

# Project Ealing.

*"I have nothing but praise for the entire Vogue team who helped us create our dream kitchen. From the first step of the design process to the final installation they were a joy to work with. Their high quality imagery enabled us to visualise our kitchen and fine-tune details with them. They advised on all the practical elements which make a kitchen not only look good but function efficiently. All in all, they turned a stressful process into a lot of fun."*

# Project Osterley.

*Our Work*

# Project Hammersmith.

*“This is my second kitchen from Vogue. My first went into a flat over ten years ago that is now rented, it’s still looking good and it’s stood the test of time. The units are still solid as a rock. Our second kitchen has gone into our house with beautiful worktops, easy to use and functioning cabinets and the pocket door cabinet were worth the spend. My favourite part of the kitchen is the wall cabinets above the sink with doors that go up, instead of opening outwards and not knock me in the face! It makes so much more sense! We’re very pleased with the service and the on going after-sales support with ordering oddities for the kitchen that we realised would be useful months down the line.”*

# Project Twickenham.
